

Symposium Bone in Chronic Kidney Disease, 23 September 2016

Location:

Amsterdam, Natura Artis Magistra, at the Zoo Amsterdam

9.00 Welcome and Introduction

Ziad Massy & Marc Vervloet

Session 1: Chair David Goldsmith and Jordi Bover

9.10 Uremic toxicity and CKD bone

Masa Fukagawa

9.40 Bone biopsy: Procedure, indications and histomorphometry anno 2016

Pieter Evenepoel

10.10 Changing Bone Patterns with Progression of Chronic Kidney Disease

Ziad Massy

10.40 Coffee Break

Session 2: Chair Adrian Covic, Vincent Brandenburg

11.00 Interpretation of DEXA Micro CT in CKD and dialysis

Marie Helene Lafage

11.30 Free communications

Researchers

Meet the experts 1:

- 12.45 Bone histology based treatment* Patrick D'Haese and Pieter Evenepoel
12.45 Evaluation of fracture (risk) in CKD Martine Cohen-Solal and Pablo Urena

13.30 *Lunch and poster viewing*

Meet the experts 2:

- 14.15 Bone histology based treatment* Patrick D'Haese and Pieter Evenepoel
14.15 Evaluation of fracture (risk) in CKD Martine Cohen-Solal and Pablo Urena

Session 3: Chairs Adrian Covic and David Goldsmith

- 14.45 Vitamin D and Osteoporosis in CKD*
Paul Lips

- 15.15 Circulating markers of bone turnover*
Marc Vervloet

Tea Break

- 15.45 Current treatments: bisphosphonates, estrogen, vitamin D Calcium and Raloxifen*
Mario Cozzolino

- 16.15 Positioning novel biologicals in CKD*
Sandro Mazzaferro
