**CONTENTS**

**Foreword** \( \nu \)

**Preface** \( \text{vii} \)

**Part I – STATISTICAL REPORTS**

Combined report on regular dialysis and transplantation in Europe, XI, 1980

*C Jacobs, M Broyer, F P Brunner, H Brynger, R A Donckerwolcke, P Kramer, N H Selwood, A J Wing, P H Blake*

Combined report on regular dialysis and transplantation of children in Europe, 1980

*M Broyer, R A Donckerwolcke, F P Brunner, H Brynger, C Jacobs, P Kramer, N H Selwood, A J Wing, P H Blake*

**Part II – GUEST LECTURE**

A review of seven years' home peritoneal dialysis \( 91 \)

*C Mion, A Slingeneyer, B Canaud, M Elie*

**Part III – DIALYSIS 1**

Prostacyclin prevents endothelial and platelet damage during dialysis

*J H Turney, N J Dodd, L C Williams, M J Weston*

Evaluation of prostaglandin D\(_2\) (PGD\(_2\)) as an anticoagulative agent for haemodialysis in comparison with prostaglandin E\(_1\) (PGE\(_1\))

*S Nakagawa, N Matsui, T Akiba, T Shinoda, Y Fukudome, K Ozawa, M Baba, T Nakanishi, J Takeuchi*

Platelet microaggregates and release of endogenous prostacyclin during the initial phase of haemodialysis

*Ch Leithner, H Sinzinger, K Siblerbauer, H K Stummvoll*

The effects of haemodialysis on cerebral blood flow

*H Holzer, K Marguc, H Pogglitsch, E Ott, H Katschnig*

Epidemiology of dialysis induced hypotension

*P Degoulet, I Réach, S Di Giulio, C Devriès, J J Rouby, F Aimé, M Vonlanthen*
Part IV – DIALYSIS 2

Haemodynamics of isolated versus dialytic ultrafiltration in the unaesthetised, non-uraemic dog

Long-term haemodialysis treatment with sodium removal by convection
F Locatelli, L Pedrini, R Ponti, R Costanzo, S Di Filippo, P Marai, C Pozzi, G P Bonacina

Influence of dialysate composition on cardiovascular function in isovolaemic haemodialysis
B Wehle, H Asaba, J Castenfors, B Gunnarsson, J Bergström

Correlation between plasma sodium acetate concentration and systemic vascular resistances
D C Schohn, S Klein, Y Mitsuishi, H A Jahn

Part V – DIALYSIS AND HAEMOFILTRATION

Improvement of hyperlipidaemia by bezafibrate treatment in RDT patients
P Grützmacher, E Schuermann, W Lang

High efficiency haemofiltration (ultrafiltration of more than 250ml/min for two hours) in eight uraemic patients
G Dongrati, T Haas, F Villeboeuf, F Khazine, J P Fendler

Erythrocyte transport of middle molecular substances
M Gajdoš, V Spustová, M Geryková, R Dzúrik

Interferon production by leucocytes of dialysed chronic uraemic patients
Gy Gál, M Toth, S Toth

Part VI – PERITONEAL DIALYSIS

Nutritional behaviour of patients on continuous ambulatory peritoneal dialysis
H v Baeyer, G M Gahl, H Riedinger, B Borowzak, M Kessel

Structural and ultrastructural peritoneal membrane changes and permeability alterations during continuous ambulatory peritoneal dialysis
C Verger, O Brunschvicg, Y Le Charpentier, A Lavergne, J Vantelon

Intraperitoneal administration of insulin during peritoneal dialysis of diabetic patients with terminal renal failure
K E Hemmelsøff Andersen, P Hyltoft Petersen
Peritonitis, a frequently lethal complication of intermittent and continuous ambulatory peritoneal dialysis
A Slingeneyer, C Mion, J J Béraud, R Oulès, B Branger, M Balmes

Renal transplantation in patients on continuous ambulatory peritoneal dialysis

Part VII – GUEST LECTURE

Hepatitis B in haemodialysis: vaccination against HBS antigen
J Crosnier

Part VIII – SYMPOSIUM

How to prevent vascular instability: haemofiltration
E Quellhorst, B Schuenemann, U Hildebrand

Role of small molecule removal in the control of treatment morbidity with haemodialysis and haemofiltration
S Shaldon

The role of sodium in the prevention of vascular instability during haemodialysis
N K Man, S Di Giulio, J Zingraff, A Sausse, J L Funck-Brentano

Part IX – POSTERS ON DIALYSIS AND RELATED TOPICS

Heparin is unable to prevent contact activation by three different membranes
P Stratta, C Canavese, G Mangiarotti, A Pacitti, C Tetta, R Coppo, R Ragni, A Vercellone

Prophylaxis of peritonitis in continuous ambulatory peritoneal dialysis (CAPD) by a simple microbiological patient self-check
K Záruba, M Oliveri

Improvement of bleeding time, platelet aggregation and platelet count during CAPD treatment
J P Arends, R T Krediet, E W Boeschoten, J van der Lelie, C H N Veenhof, A E G Kr von dem Borne

Changes in red cell mass, plasma volume and haematocrit in patients on continuous ambulatory peritoneal dialysis
M de Paepe, N Lameire, K Schelstraete, S Ringoir
Evaluation of 25(OH)D loss in dialysate of children on continuous ambulatory peritoneal dialysis
M Guillot, C Lavocat, M Garabedian, C Sachs, S Balsan, M G Gagnadoux, M Broyer

Economic preparation of sterile pyrogen free infusate for haemofiltration
P Ramperez, M C Beau, G Deschodt, J L Flavier, L Nilsson, C Mion, S Shaldon

A double chamber catheter for chronic ambulatory peritoneal dialysis (CAPD)
V Calderaro, B Memoli, V Terracciano, M M Balletta, R Genualdo, S Riccardi, F Fabiani, E Di Salvo, V E Andreucci

Complement activation and Clq binding activity in haemodialysis
N J Dodd, D Vergani, J H Turney, V Parsons, M J Weston

Transvenous serial Xero-arteriography: a new non-invasive angiographic method for av-fistulas in haemodialysis patients
K Konner, H M Karnahl

Part X – SYMPOSIUM

Transplantation in children: technical aspects, drug therapy and problems related to primary renal disease
M Broyer, M F Gagnadoux, D Beurton, B Pascal, J Louville

Renal transplantation in children
R N Fine

Growth and rehabilitation of long-term survivors of treatment for end-stage renal failure in childhood
C Chantler, M Broyer, R A Donckerwolcke, H Brynger, F P Brunner, C Jacobs, P Kramer, N H Selwood, A J Wing

Part XI – GUEST LECTURE

Induction of specific unresponsiveness in kidney transplant recipients
J R Batchelor, R I Lechler

Part XII – TRANSPLANTATION 1

Pretransplant blood transfusions can harm matched kidneys in dogs
A B Bijnen, H Obertop, G J C M Niessen, J Jeekel, D L Westbroek

Altered immunoregulatory function in long-term renal allograft recipients
R D Guttmann, R S Poulsen
Early evaluation of Ia monoclonal antibodies in prolonging non-human primate skin allograft survival
*S N Chatterjee, R Billings, D Bernoco, P Terasaki*

Are transplantation antigens stable constituents on human renal allografts?
*P Häyry, Eeva von Willebrand, J Ahonen, B E Eklund*

Platelet abnormalities in renal transplantation
*A Capitanio, C Ponticelli, A D’Angelo, P M Mannucci*

Pathogenic approach to the hypophosphataemia of renal transplantation
*J J Plaza, J M Castrillo, V Alvarez, A Rapado, L Hernandez*

Cell-mediated immunity during RDT and the outcome of transplantation
*M A Watson, D N H Hamilton, J D Briggs, S G Macpherson, D Tsakiris*

Part XIII – TRANSPLANTATION 2

Controlled trial of low versus high dose oral steroid therapy in 100 cadaveric renal transplants
*J A C Buckels, P Mackintosh, A D Barnes*

‘Nephrotoxicity’ and metabolic acidosis in transplant patients on Cyclosporin A
*D V Hamilton, D B Evans, R G Henderson, S Thiru, R Y Calne, D J G White, D J S Carmichael*

Experimental normothermic kidney preservation: histological considerations
*R N Dunn, F K Merkel, D Roseman, H Haklin, K English*

A comparison of two approaches to the problem of early acute rejection of renal transplants
*B D Pentlow, M Cooper, R Goffin, P Harrison, A S Parker, C Mackenzie, H White*

Immunosuppressive effect of bredinin in the management of patients with renal transplantation
*R Kusaba, O Otubo, H Sugimoto, I Takahashi, Y Yamada, J Yamauchi, N Akiyama, T Inou*

Part XIV – TRANSPLANTATION 3

Induction of specific transplantation tolerance via immunisation with donor-directed idiootype(s)
*P Häyry, Anu Soots, A Nemlander, H Binz, E Wight, M Fenner, H Wigzell*
MLR inhibitory activity of pretransplant anti-donor B cell antibodies, and kidney graft survival
*V Lenhard, H Diehm, W Rettwitz, K Dreikorn*

Should the upper age limit for cadaveric kidney donors be changed?
*J A van der Vliet, G G Persijn, G Kootstra*

Beneficial influence of matching for D/DR antigens and treatment with cyclosporin-A on kidney graft survival in transfused rhesus monkeys
*J C C Borleffs, R L Marquet, P Neuhaus*

Suppressor cell activity in human renal allograft recipients
*C Hammer, W Land, L A Castro*

**Part XV - POSTERS ON TRANSPLANTATION**

Rejection encephalopathy
*M L P Gross, R Pearson, P Sweny, O N Fernando, J F Moorhead*

Effects of blood transfusion on cellular immunity
*F Giacchino, P Belardi, R Coppo, F Quarello, S Alloatti, M Pozzato, G Giraudo, D Roccatello, B Basolo, R Boero, G Piccoli*

Transplantation of cadaveric paediatric donor kidneys into adult recipients
*G D Kremer, M J H Slooff, A M Tegzess, S Meijer*

Enhanced renal allograft survival from azathioprine/steroid modified antibody-dependent cellular cytotoxicity
*Lynette J Dumble, Ileene M Macdonald, Priscilla Kincaid-Smith, G J A Clunie*

In vitro immunoresponsiveness in recipients of cadaveric renal allografts during ATG therapy
*H Grosse-Wilde, H D Jakubowski, F W Eigler, E K Kuwert*

Suppressor cells in kidney allograft tolerance
*B Charpentier, P Lang, B Martin, D Fries*

**Part XVI - NEPHROLOGY I**

Treatment of idiopathic acute crescentic glomerulonephritis by immunodepression and plasma-exchanges. A prospective randomised study
*G Rifle, J M Chalopin, P Zech, P Deteix, F Ducret, P Vialtel, D Cordonnier*

Long term study of mesangial proliferative glomerulonephritis with IgM deposits
*A Vangelista, G Frascà, G Biagini, V Bonomini*
Glomerular haemodynamics in pregnant rats
A Dal Canton, G Conte, C Esposito, G Fuiano, R Guasco, D Russo, M Sabbatini, F Uccello, V E Andreucci
Renal prostaglandins E₂ and F₂α in normal pregnancy and in pregnancy with hypertension
S Kovatz, M Rathaus, N Ben Aderet, J Bernheim

Part XVII – NEPHROLOGY 2: PAEDIATRIC NEPHROLOGY
Changes in dental development in paediatric patients with chronic kidney disease
A Bublitz, E Machat, K Schärer, G Komposch, O Mehls
Body iron stores in children with chronic renal failure in relation to HLA phenotypes
D E Müller-Wiefel, V Lenhard, K Schärer
Acute renal failure in 11 children with non-Hodgkin lymphoma
L Radaelli, F Fossati-Bellani, M Gasparini, S Bertoli, C Gianni, G Barbiano di Belgiojoso, G Colussi
Microsurgery for haemodialysis distal arteriovenous fistulae in children weighing less than 10kg
P Bourquelot, L Wolfer, L Lamy
Hypertrophic cardiomyopathy in children with end-stage renal disease and hypertension
A Drukker, J Urbach, J Glaser

Part XVIII – NEPHROLOGY 3
Tumour-like growth of parathyroid autografts in uraemic patients
U Frei, I Klempa, M Schneider, E H Scheuermann, K M Koch
Mechanism of allopurinol action in calcium oxalate stone formers
B Tomlinson, A Al-Khader, S L Cohen, G P Kasidas, S Krywawych, L Edgar, G A Rose
Possible role of inorganic sulphate in the pathogenesis of hyperparathyroidism in chronic renal failure
D Michalk, W Tschöpe, H J Böhles, O Mehls
Osteopenia during long-term haemodialysis: response to vitamin D₃ analogues
N Muirhead, S Adami, R A Fraser, G R D Catto, N Edward, J L H O’Riordan
The effects of vitamin A toxicity on calcium and lipid metabolism in chronic renal failure
P Miller, P Sweny, J W Persaud, Z Varghese, K Farrington, M K Chan, R A Baillod, J F Moorhead
Part XIX – NEPHROLOGY 4

The influence of 1 alpha-hydroxycholecalciferol on left ventricular function in end-stage renal failure
R J S McGonigle, A D Timmis, J Keenan, D E Jewitt, M J Weston, V Parsons

Postsynaptic adrenergic unresponsiveness in hypotensive haemodialysis patients
A Botey, J Gaya, J Montoliu, A Torras, F Rivera, J López-Pedret, L Revert

Hyperdynamic left ventricular function in chronic haemodialysis patients: possible mechanisms
M Eldar, A Battler, A Iaina, I Serban, H N Neufeld, H E Eliahou

Effect of extracorporeal blood cooling on dialytic arterial hypotension
Q Maggiore, F Pizzarelli, C Zoccali, S Sisca, F Nicolò, S Parlongo

Effect of captopril on the systemic and renal responses to acute isotonic volume expansion in normal man
A Mimran, J Ribstein

The role of the adrenergic system in hypertension after renal transplantation
R S Smith, J L Reid, D J Warren

Part XX – GUEST LECTURE

The endocrine system in patients with acute renal failure
F Kokot

Part XXI – POSTERS ON NEPHROLOGY

Peripheral haematocrit modulates erythropoietin production and kinetics of reticulocytes in chronic uraemic patients
A Walle, J F Garcia, W Niedermayer

Urea cycle and protein content in leucocytes from normal persons and uraemics
M Vlaho, H-G Sieberth

Blockers of beta and H₂ receptors and secondary hyperparathyroidism of uraemia
R Makkadasi, P H Decourcelle, Ph Morinieres, B Coevoet, J F de Fremont, J Kassouf, A Roussel, J D Gheebrand, M Andrejak, A Fournier

Predictive value of ⁹⁹ᵐTc pyrophosphate bone scintigraphy for vitamin D trials in uraemia
J L Vanherweghem, M Dhaene, C Tielemans, M Dratwa, P Verbanck, P Bergmann, A Schoutens, M Fuss
Part XXII – JOINT MEETING EDTA/ISAO – SESSION 1

Chairman’s Introductory talk
J P Merrill

Dialysis strategy: cost and effectiveness
D N S Kerr

Desferrioxamine-induced changes of aluminium kinetics during haemodialysis
H Graf, H K Stummvoll, Vanee Meisinger

Vascular stability and middle molecules removal in hypertonic haemodiafiltration
V Cambi, C Buzio, L Arisi, C Calderini, S David, A Manari, F Bono, P Zanelli

An interactive graphic database microcomputer for clinical control in data intensive therapies
M Gordon, H E de Wardener, C Venn, J T Webb, H Adams

Assessing the adequacy of dialysis
P E Teschan, H E Ginn, J R Bourne, J W Ward

Part XXIII – JOINT MEETING EDTA/ISAO – SESSION 2

Chairman’s Introductory talk
J Hamburger

Bionics in spare parts medicine: management and clinical issues
P Galletti

Malignant tumours in dialysis patients: a nationwide survey
K Ota, N Yamashita, T Suzuki, T Agishi

Silicone filings in macrophages of viscera: an iatrogenic complication of haemodialysis
J Bommer, R Waldherr, E Ritz

Effect of plasma exchange and thoracic duct drainage on immunological status in glomerulonephritis
V Bonomini, A Vangelista, S Stefoni, G Frascà, A Nanni Costa

Continuous arteriovenous haemofiltration. A new kidney replacement therapy
P Kramer, J Schrader, W Bohnsack, G Grieben, H J Gröne, F Scheler
Membership of the European Dialysis and Transplant Association 750
Subject Index 751
Author Index 770
